Subject: **License Renewal Request**  
**Radioactive Materials License 48-186-72-01**

Dear Ms. Simmons:

AECOM is notifying the U.S. NRC that AECOM is submitting a license renewal request for radioactive materials license 48-186-72-01 for the possession, use, and storage of portable gauges. This current license expires on December 31, 2010.

The current listed RSO for the license has departed the company. With this, the renewal notice has been missed and not forwarded to the correct party. As we discussed by telephone this afternoon, AECOM will follow-up with the required supplemental and additional information completing the renewal application. The information will be received by the NRC within 10 business days.

If you have any questions, please feel free to contact me at (920) 451-2452, or through email at [ken.bergschultz@aecom.com](mailto:ken.bergschultz@aecom.com).

Thank you for the opportunity to work with you on resolving this matter directly.

Sincerely,

A handwritten signature in black ink, appearing to read "Ken Bergschultz".
